## AUDIT FINDINGS

### **Narrative:**

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act (PREA) audit for the Florida Department of Corrections (FDC) Apalachee Correctional Institution (APACI), is submitted and accomplished by James Curington, Department of Justice (DOJ) Certified PREA auditor, through AJF Correctional Counseling and Auditing, Inc..

Apalachee Correctional Institution (APACI) is a major facility with East and West Units run by the Florida Department of Corrections (FDC) for the state of Florida. The facility is located at 35 Apalachee Drive,, Sneads, Jackson County, FL 32460.

The auditor from AJF Correctional Counseling and Auditing was appointed/contracted by Ms. Kendra Prisk, FDC, Agency PREA Coordinator.

The auditor's methodology was to use a step-by-step process, which included the following:

1. Contacting and contracting with the agency/facility to accomplish the prison audit as outlined by the Prison Rape Elimination Act of 2003 using the Online Automated System (OAS). This included 43 standards of the Act, plus the two supplemental standards, Auditing and Corrective Action 115.401 and 115.403; and the evaluation instruments of the PREA Resource Center (PRC).
2. Sending a preaudit report form to the PRC (accomplished by the OAS).
3. Making contacts with the facility, the posting of audit notices, establishing an agenda for the site visit.
4. Obtaining the Pre-Audit Questionnaire and facility information, much included in the OAS.
5. Making a site visit to the community and the facility.
6. Making an assessment of compliance/noncompliance and the triangulation of a) pre-audit information; b) site visit, and review of the on-site information, and documentation; and c) post site visit review of materials, interviews and documents, and an assessment of compliance/noncompliance.
7. Completing an interim/final report-summary report.
8. Notifying the Agency/facility of the auditor summary report, and sending the summary report/post audit report/final report to the PRC.

It should be noted that to obtain the final report, the auditor again, used a triangulation method to bring together the assessment process, i.e., preaudit work, on-site work and summary review assessment work.

Specific to the audit. The following materials furnished by the PRC, through its website were used to assess and complete the audit report.

The PREA Auditor Handbook .

The PREA Report Template, April 2018, as a reference.

The PREA Audit Instrument, Adult Prisons and Jails, as a reference.

The Online Automated System as set up by the Agency, through the PRC for the auditors.

After notifications, contact information, posting of notices, review of information about the facility, the auditor began a review of the 12 sections of the Compliance Tool, and all 43 plus 2 standards in the Online Automated System. The 12 sections addressed: Prevention Planning; Response Planning; Training and Education; Screening for Risk of Sexual Victimization and Abusiveness; Reporting; Official Response Following an Inmate Report; Investigations; Discipline; Medical and Mental Healthcare; Data Collection and Review; Auditing and Corrective Action; and Post Audit Report and Audit Findings. Following this pre-audit review, the auditor began his site visit, the second part of the triangulation, on Sunday, June 10, 2018.

The site visit consisted of the following:

Sunday, June 10: evening dinner introductions meet and greet, general information, and the agenda for the site visit.

Monday, June 11: PREA audit discussion. Review of the schematics of the facility, review of the audit tour, review of the demographics of the facility, selection of staff (including volunteers, contractors, and interns) and inmate interviews, (inmate interviews to include LGBTI inmates, inmates who are limited English proficient, inmates in segregated housing, inmates, who reported victimization during a screening, inmates who reported sexual abuse, inmates placed in segregated housing for protection, as documented by the PREA Auditor Handbook).

Tuesday, June 12: visit and revisit institutional operational areas; review specialty program areas, including intake and orientation; make calls to the representative crisis center; interview sworn investigators; and continue with interviews of staff and inmates. Review PREA standards.

Wednesday June 13: continue with follow-up interviews with the Warden, key staff , and review, pre-audit information, on-site information and begin triangulation of the audit information. Depart APACI that afternoon.

The above schedule/agenda was accomplished, making adjustments as necessary for visiting all areas of the facility, reviewing the operations of the facility, scheduling interviews, and observing efforts for compliance with PREA.

The interviews with staff and inmates were conducted as outlined in the PREA Auditor Handbook. A) Thirty-nine (39) staff were formally interviewed from the scripted protocols (19 random staff and 20 specialized staff). B) Fifty-three (53) inmates were interviewed, including those listed and outlined by the PREA Auditor's Handbook Many informal discussions were held with inmates and staff. The auditor talked to staff on their posts and inmates in their housing, and work areas , this to generally understand and obtain information, helping assess the PREA program at APACI.

The methodology also included many discussions concerning zero tolerance of sexual abuse and sexual harassment and compliance with the PREA law.

It was noticeable throughout the facility that staff and inmates were aware of the zero tolerance policy and that the institution was taking a lead to eliminate sexual abuse and sexual harassment in prison. Clearly the Agency has established a zero tolerance policy by its Procedure 602.053 Prison Rape: Prevention, Detection and Response outlining overall compliance with the PREA standards preventing, detecting, and responding to sexual abuse and rape in prison.

Indicative of the FDC's commitment to zero tolerance and PREA compliance, the auditor quotes the back cover of the Apalachee Correctional Institution Inmate Manual. This back cover page is evidence of APACI's efforts for the safety and security of staff and inmates.

"Inmates are encouraged to immediately report any concern or fear of possible sexual battery to any

correctional staff member. "We want to know." No staff member will demean the situation through any type of humiliation or harassment. Treatment and counseling opportunities are available through mental health staff.

Victims of sexual battery should try to preserve as much physical evidence of the battery as possible. Prior to reporting a sexual battery, there should be no showering, washing, etc., of the body and/or of clothing or bed linen."

The back page goes on to define sexual battery and sexual harassment. The auditor was especially impressed with the institution's emphasis by using this back cover page to tell inmates that they want to know about sexual abuse.

Additionally, the auditor was especially impressed with the Florida Department of Corrections comments made in their PREA Procedure 602.053 Prison Rape: Prevention, Detection, and Response. To quote the Procedure "All staff, volunteers, and contractors will ensure that they foster an environment within the facility that precludes sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment." Moreover, it is noted that the FDC directs that "Any employee who fails to report or take immediate action regarding these incidents, or intentionally manifest actions to embarrass, demean, or humiliate any victim or informant, or trivializes a report of sexual abuse, sexual battery, staff sexual misconduct, or sexual harassment will be subject to discipline, up to and including termination." This position that the FDC takes, accentuates its commitment to changing the culture of silence, the culture of you get what you deserve when you go to prison, the culture of inattention; and establishing its commitment to preventing rape in prison and changing one life at a time. Note the mission statement.

## AUDIT FINDINGS

### Facility Characteristics:

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Apalachee Correctional Institution (APACI) of the Florida Department of Corrections (FDC) is an adult all male, close custody two unit facility (a East Unit, and a West Unit) located in the Panhandle of Florida on Lake Seminole (the damned confluence of the Chattahoochee and Flint Rivers bordering Florida, Georgia and Alabama) at 35 Apalachee Drive., Sneads, FL 32460. It is part of the third-largest state system of Corrections in the USA (Florida behind Texas and California in inmate population). The system itself holds approximately 100,000 inmates, and approximately 25,000 employee positions. APACI has 2087 inmates. There are 891 inmates at the West Unit and 1196 at the East Unit with staffing of approximately 420 staff which may have duties and responsibilities at one or both units. Inmates are of four security levels: community, minimum, medium, and close security. The age range is 19 - 70. The average length of stay is 6.84 years.

The facility itself consists of 33 buildings with a large staff housing complex on the property. The East Unit and the West Unit are separately fenced compounds about a half mile from each other. The fenced compounds are patrolled by armed perimeter security (24/7). There are two security/special housing areas, one at each unit. There are a total of 12 open bay/dormitory inmate housing units [five (5) at the East Unit, seven (7) at the West Unit] and four (4) cell housing units [three (3) at the East Unit, one (1) at the West Unit] at APACI. The facility is in itself a small town with an infirmary, medical and mental health care clinics, food service, dining halls, kitchens, Chapels, administration buildings, laundries, recreation facilities, education buildings, maintenance shops and etc.

Inmate work programs include food service, laundry, maintenance, janitorial, clerks, orderlies, housekeeping, grounds, farming, gardening, and etc. All to assist in facility operations. Inmate Programming includes: medical (24/7), mental health, and dental health care programs; academic programs, vocational programs; substance abuse programs; religious, volunteer and chaplaincy services programs; reentry programs; institutional development programs, (Alcoholics Anonymous, Anger Management, Thinking for a Change); transition programs; and community work squads (Public work squads, Interagency Community Service work squads).

The history of Apalachee Correctional Institution is quoted from the cover of the 2018 PREA welcome book "Apalachee Correctional Institution was established in 1949 is a Youthful Offender facility. In 1959 the name was changed to East Unit when the Prison Labor Camp was acquired from the Division of Mental Health and the new property was designated as West Unit. In 1990 the profile was changed to adult males. This facility was originally established as a Prison Labor Camp under the Division of Mental Health to grow food and provide labor support for Florida State Hospital in Chattahoochee. In 1959 the facility was incorporated with the Apalachee Correctional Institution, and was designated as West Unit. It continued to house adult males and the farm program grew until in 1985 the Department of Corrections entered a lease agreement with PR IDE to manage all lands not essential for the operation of the institution (approx. 7000 acres). The facility currently houses adult male inmates."

The Mission of Apalachee Correctional Institution is: "provide a continuum of services to meet the needs of those entrusted to your care, creating a safe and professional environment with the outcome of reduced victimization, safer communities and an emphasis on the premium of life."

Apalachee Correctional Institution is an American Correctional Association, Accredited Facility.

## AUDIT FINDINGS

### Summary of Audit Findings:

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

<b>Number of standards exceeded:</b>	2
<b>Number of standards met:</b>	43
<b>Number of standards not met:</b>	0

Number of Standards exceeded: two subtotal exceeds (2)

Standard 115.54 Third-Party Reporting (compliant form is on the OIG website)

Standard 115.61 Staff and Agency Reporting Duties (no staff will demean the situation, etc.)

Standards, 115.11 to Standard 115.89 (less 115.54 & 115.61 exceeds), (41); and the two added standards of 115.401 and 115.403 (2), subtotal met (43)

Total exceeded (2) and met (43) Standards 45

Number of standards not met: zero (0)

Corrective action was not required.

## Standards

### Auditor Overall Determination Definitions

- Exceeds Standard  
(Substantially exceeds requirement of standard)
- Meets Standard  
(substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard  
(requires corrective actions)

### Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.11	<b>Zero tolerance of sexual abuse and sexual harassment; PREA coordinator</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>Beginning with the Online Automated System (OAS) and using the Pre-Audit Questionnaire (PAQ)/preaudit information supplied by the Florida Department of Corrections (FDC), and through the on-site visit and interviews at Apalachee Correctional Institution (APACI) and this summary review of the organizational charts, the facility, the Prison Rape Elimination Act (PREA), and posters and notices for the inmates, staff, visitors, and contractors; it was clear that the FDC, and specifically Apalachee Correctional Institution are committed to a zero tolerance policy of sexual abuse and sexual harassment. The leadership of the PREA Coordinator for the Agency, and the PREA Manager for the Institution substantiates compliance required by this standard, 115.11. The subsections a, b, and c are addressed by the Agency Procedure 602.053 Prison Rape: Prevention, Detection, and Response. The procedure specifically outlines its purpose, "to establish the zero-tolerance PREA standards for sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment in institutions and community corrections while protecting the rights of inmates and offenders, regardless of gender or sexual preference, through accountability of perpetrators, and the punishment of those institutional and community correctional officials who fail to prevent, detect, and respond to sexual abuse, sexual battery, and sexual harassment crimes for incarcerated inmates and those offenders under departmental jurisdiction."</p> <p>The organizational charts themselves, as well as appointment memos and job descriptions for the PREA Coordinator and the Institutional PREA Manager, further demonstrate the Agency's and the Institution's commitment to PREA standards compliance. The auditor worked closely with the Agency PREA Office and the Assistant Warden of Programs, (the APACI PREA Compliance Manager) to fully review the Agency's and Institution's commitment to zero tolerance and the ability to implement PREA compliance. The Institution has gone so far as to appoint auxiliary/alternate PREA Compliance Manager's at the direction of a memo by the Warden, " Subject: PREA-Designation of Compliance Managers".</p> <p>Also noted in Procedure 602.053, it is outlined and it is directed that the Office of Institutions for the FDC, through its PREA Coordinator, and Compliance Managers, is responsible for the administration of the PREA compliance program. Specifically, addressing implementation of effective strategies, compliance with federal laws, maintaining records, and "planning, directing, and coordinating all activities related to the compliance program, including administrative, financial, and operational issues,".</p> <p>Based on the scripted interviews with the Secretary of the Florida Department of Corrections and her commitment to zero tolerance; interviews with the above-mentioned key staff, randomly selected staff, and inmates; based on the Procedure 602.053; based on the observation of posters at the facility; and based on the orientation and screening process as observed by the auditor; the auditor assesses this standard as compliant, "meets standard".</p>

115.12	<b>Contracting with other entities for the confinement of inmates</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>Apalachee Correctional Institution does not contract with other entities for confinement of inmates, thus, this standard is non-applicable. The Florida Department of Corrections does have facilities with which it contracts for the housing of inmates/offenders and these facilities are required by contract to comply with PREA. These contracts are monitored and comply with PREA.</p> <p>Based on the fact that APACI does not contract with another agency to hold its inmates/offenders, and based on the fact that the auditor interviewed the Secretary of the Department, the PREA Coordinator, and a FDC Contract Manager, each of whom indicated that facility contracts for housing FDC inmates/offenders were required to stipulate strict compliance with PREA, it is the auditor's assessment that this standard is compliant and "meets standard".</p>

115.13	<b>Supervision and monitoring</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The APACI Security Department, in conjunction with the Bureau of Security Operations for the FDC, and approved by the Deputy Secretary of the Institutions for the FDC, establishes staffing level guidelines which are used, based on the security levels of inmates (level I, level II, level III,), to establish post staffing for each facility and assist with roster management, and to help outline staffing priorities. The auditor reviewed the Apalachee Correctional Institution staffing plan and noted that the staffing plan addressed in its written plan the following:</p> <ol style="list-style-type: none"> <li>1. Generally accepted detention and correctional practices</li> <li>2. Any judicial findings of inadequacy (none)</li> <li>3. Any findings of inadequacy from federal investigative agencies (none)</li> <li>4. Any findings of inadequacy from internal or external oversight bodies (annual evaluations and reviews are continuing)</li> <li>5. All components of the facility's physical plant</li> <li>6. The composition of the inmate population</li> <li>7. The number and placement of supervisory staff</li> <li>8. Institutional programs occurring on a particular shift</li> <li>9. Any applicable state or local laws, regulations or standards</li> <li>10. The prevalence of substantiated and unsubstantiated instances of sexual abuse</li> <li>11. Any other relevant factors</li> </ol> <p>The PREA auditor carefully reviewed the staffing plan, the post charts, and video monitoring for both the East and West Units and notes that APACI has documented a staffing plan that provides for staffing and video monitoring to protect inmates against sexual abuse. It is also noted by the auditor that deviations from the staffing plan are documented.</p> <p>Supervisory reviews, rounds, and unannounced rounds for security concerns and safety issues are made by higher-level staff. These rounds, including unannounced rounds, are documented weekly for administrators. Daily rounds as well as unannounced rounds are made by supervisory staff. Staff are prohibited by policy from alerting other staff that rounds are being made and supervisors make an extra effort to ensure that unannounced rounds are varied, not patterned, and support effective monitoring..</p> <p>Based on interviews with higher level and intermediate security staff, random line security staff, and the review of the staffing plan, the post orders, the post-charts, weekly and daily logs, and based upon the facility review/on-site visit, this standard is assessed as compliant, "meets standard".</p>

<b>115.14</b>	<b>Youthful inmates</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>APACI is an adult correctional institution and there are no youthful inmates under the age of 18 at Apalachee Correctional Institution. The FDC does not house inmates under the age of 18 at this facility. This standard is assessed as non-applicable, thus "meets standard". This is outlined in the facility profile.</p> <p>It is noted that 2018, Florida Statutes indicate that inmates under the age of 18 will not be housed with inmates 18 or older. Youthful offender inmates under the age of 18 will be housed at youthful offender facilities and APACI is not a youthful offender facility.</p>

115.15	<b>Limits to cross-gender viewing and searches</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>APACI strictly adheres to the FDC Procedure 33-602.204 Searches of Inmates. This procedure clearly outlines 1) searches of inmates while clothed; 2) strip searches of inmates and; 3) body cavity searches of inmates. The policy stipulates "searches of clothed male inmates may be conducted by staff who are of the opposite sex from the inmates. Clothed searches of female inmates by male staff will only be conducted during an emergency situation as determined by the shift supervisor... Strip searches of inmates shall be conducted only by correctional officers who shall be of the same sex as the inmate, except in emergency circumstances.... Body cavity searches of inmates shall be conducted only by appropriate health services staff...".</p> <p>There have been zero (0) number of cross gender patdown searches of female inmates in non-exigent circumstances at APACI. APACI does not have female inmates, thus, this section concerning female inmates is not applicable to APACI.</p> <p>The facility documents all cross gender strip searches and cross gender visual body cavity searches of inmates.</p> <p>The facility has implemented procedure and practice that enables inmates to shower, perform bodily functions and change clothes without being viewed by nonmedical staff of the opposite gender. Showers and toilet areas in the housing units were reviewed by the auditor. There is privacy regarding breast, buttocks, or genitalia, assisted by screens, shower curtains, stalls, and walls as appropriate.</p> <p>The facility correctional staff does not examine transgender or intersex inmates for the sole purpose of determining the inmates genital status. This is outlined by administrative direction/policy.</p> <p>100% of the staff have been trained on how to conduct cross gender patdown searches in a professional and respectful manner consistent with security needs.</p> <p>Based on interviews of staff and inmates, the review of policy and procedures, as well as the auditor's review and observation of operations at APACI, the auditor assesses this standard as compliant, "meets standard".</p>

115.16	<b>Inmates with disabilities and inmates who are limited English proficient</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>Apalachee Correctional Institution; through the Agency Procedures 602.053 Prison Rape: Prevention, Detection, and Response, and 604.101, Americans with Disabilities Act Provisions for Inmates, and through the Inmate PREA Education Facilitators Guide Instruction for Permanent Facilities; makes sure that appropriate steps are taken such that inmates with disabilities and those with Limited English Proficiency (LEP) can benefit from all aspects of the Agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment in prison. The FDC, through these procedures, address education, qualified translations services, and disability services.</p> <p>The Inmate PREA Education Facilitators Guide Instruction for Permanent Facilities is comprehensive in addressing inmates who are limited English proficient, have a disability, need a translator or language line operator, need close captioning and/or American Sign Language (ASL), inmates who are blind, inmates with cognitive or learning disabilities, inmates who have mental health issues, all addressing the emphasis of providing PREA education to teach inmates about their right to be free from sexual abuse and sexual harassment.</p> <p>The auditor observed APACI inmate handbooks/orientation materials in Spanish, posters in Spanish, and other materials available to the inmate population detailing PREA information or how to obtain PREA information.</p> <p>The Agency prohibits the use of inmate interpreters or other types of inmate assistants except in limited circumstances. In the past 12 months, there have been zero (0) instances at APACI that required the use of inmate assistants.</p> <p>Based on the above procedures and observation of the language assistance, materials, and interviews with staff and inmates, the auditor assesses this standard as compliant, "meets standard."</p>

115.17	<b>Hiring and promotion decisions</b>
	<p data-bbox="248 170 898 203"><b>Auditor Overall Determination:</b> Meets Standard</p> <p data-bbox="248 248 523 282"><b>Auditor Discussion</b></p> <p data-bbox="248 327 1442 573">The Florida Department of Corrections has established policies to assist with hiring and promotion of anyone who may have contact with inmates who may have engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or who has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force or such sexual battery or sexual activity, to assist in the prevention of sexual abuse or sexual harassment as outlined by PREA.</p> <p data-bbox="248 624 1485 960">Specifically, Florida Statute Chapter 435 Employment Screening; FDC Procedure, 208.049 Background Investigation and Appointment of Certified Officers, Procedure 602.016 Entering and Exiting Department of Corrections Institutions (including APACI); and Personnel Rules and Regulations help direct employment of staff, contractors, and interns; help in maintaining up-to-date information on staff, contractors and volunteers, and help impose on employees a continuing affirmative duty to disclose misconduct, as well as help assisting in outlining hiring and promotion procedures. All of this to set forth guidelines for conducting background investigations that apply to the Florida Administrative Code, and to PREA.</p> <p data-bbox="248 1010 1485 1644">All employees are required by law to be screened, which includes fingerprinting, statewide criminal history checks [these through the Florida Department of Law Enforcement (FDLE)], national criminal history checks [these through the Federal Bureau of Investigation (FBI)], local criminal records checks as appropriate, and a Background Investigation Checklist (the checklist includes 35 checkoff items from, #1-veterans preference to #35-new hire form). The Florida Department of Corrections uses "live scan" by Information International Incorporated, in conjunction with a law enforcement reporting system that alerts the FDC to any arrest of staff. The Agency also requires staff to self-report misconduct. This "live scan" is more accurate and more up-to-date than yearly or five year background checks. Applicants may also be disqualified based on the Department's "moral character and background guidelines,". Annual National Crime Information Center (NCIC) and the Florida Criminal Information Center (FCIC), the Human Resource Tracking System (HRTS) database, and the FDC's Facility Access Secured Tracking (FAST) along with personal disclosure information and driving record information, all emphasize a comprehensive updated background check/information on staff, contractors and others.</p> <p data-bbox="248 1695 1481 1859">The PREA auditor reviewed the statutes, the policies and procedures, the background checks, and interviewed the APACI Human Resource staff, and security staff reference background information. It was obvious the Agency uses back ground information to employ and promote qualified, honorable, and ethical staff.</p> <p data-bbox="248 1868 1445 1989">It was especially enlightening to review the Agency's commitment to "good moral character" which is expected of staff and is defined as "refers to the ability to distinguish between right and wrong, as demonstrated by past conduct and outlined by the Department".</p> <p data-bbox="248 2040 1398 2161">Based on the above statutes, policies and procedures, based on the "live scan" and background information system, and based on interviews with supervisory staff, Human Resource staff, and higher and intermediate staff, the auditor assesses this standard as</p>

compliant, "meets standard."

<b>115.18</b>	<b>Upgrades to facilities and technologies</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>There has been some modification to the APACI facilities since the last audit that has improved privacy for the inmates in reference to Cross Gender Viewing, Standard 115.15. There has also been modification to the APACI audio/video system at the facility to assist with supervision and monitoring Standard 115.13. The PREA auditor reviewed, during the on-site visit, the dormitory areas. Video monitoring was also reviewed.</p> <p>Screens and barriers have been placed in every dormitory latrine and shower area to allow inmates privacy from staff of the opposite gender.</p> <p>The facility has updated and installed additional monitoring/surveillance to their camera system and monitoring technology, meeting standards and helping further prevent, detect and respond to sexual abuse and sexual harassment. The auditor reviewed the camera/video monitoring system and the system has had repairs and some modifications, as technology improves the systems further expand and are improved. Fixed cameras are located in all the housing units and the administrative and disciplinary confinement units. These cameras record activity on a 24-hour basis with a 30 day retention. Review is primarily located in the shift supervisor's office with the auxiliary review in the Warden's complex and video systems take into consideration privacy issues for the inmates.</p> <p>The Sexual Abuse Incident Review Committee (SAIRC) reviews each completed allegation of sexual abuse at the facility excluding only unfounded incidents, and takes into consideration whether monitoring technology should be deployed or augmented to supplement supervision by staff. Additionally, the team examines the area where the alleged incidents occurred and whether physical areas may enable abuse. The SAIRC, which is headed by the PREA Manager (Assistant Warden) makes recommendations and forwards them to the Warden and, on a monthly basis, reports recommendations for improvements to the PREA Coordinator, this outlined in Procedure 602.053, Prison Rape: Prevention, Detection, and Response.</p> <p>Based on the Institution's Pre-Audit Questionnaire that outlines modifications to the facility, including screens and barriers, and video monitoring equipment enhancements (which takes into consideration privacy issues of this standard); based on the interviews with key staff; based on interviews with inmates; and based on the auditor's on-site visit and the auditors review of operations at APACI, this standard is assessed as compliant, "meets standard."</p>

115.21	<b>Evidence protocol and forensic medical examinations</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The FDC's responsive planning as it relates to this PREA Standard, 115.21 Evidence Protocol and Forensic Medical Examinations is comprehensive and supports the Agency's efforts to change the culture of prison rape and help prevent, detect, and respond to sexual abuse in prison.</p> <p>The Agency is responsible for conducting administrative sexual abuse investigations and the Office of the Inspector General (OIG), who reports not only to the Agency Secretary, but also to the Inspector General of the governor's office and has Florida statutory authority and responsibility to conduct criminal investigations at Apalachee Correctional Institution and in all of the FDC. This statutory authority and responsibility takes it out of control (in this auditor's opinion) of the Agency and complies with PREA.. The OIG follows a uniform evidence protocol. This protocol meets the Department of Justice requirements.</p> <p>The facility offers all inmates who experience sexual abuse, forensic medical examinations on site. These medical examinations are offered without cost and are accomplished by the Panhandle Forensic Nurse Specialists (these are Forensic Nurse Examiners-FNEs, with FDLE evidence kits supplied by the nurses). The auditor reviewed the agreement between the Panhandle Forensic Nurse Specialists, and the FDC. Eight forensic exams have been conducted during the past 12 months, and have been done by the FNEs.</p> <p>Victim Advocates are available through the Gulf Coast Children's Advocacy Center, Incorporated. There is a contract #C2891 between the Advocacy Center and the FDC. The contractor provides a 24/7 toll-free rape crisis hotline, staffed by certified Victim Advocates; provides a mailing address for correspondence; provides a certified Victim Advocate for forensic exams and investigatory interviews; provides follow-up services and crisis intervention to victims of sexual assault; maintains privileged communication and provides other services consistent with PREA. The Agency also has staff Victim Advocates who are certified by the Florida Attorney General's Office, if needed.</p> <p>In addition to the agreement with Panhandle Forensic Nurse Specialists; the contract with Gulf Coast children's Advocacy Center, Incorporated; and the OIG's website related to PREA, the auditor also reviewed the following:</p> <ol style="list-style-type: none"> <li>1) the forensic sexual assault examination/general information, and forensic examination standardized treatment protocol record sheet</li> <li>2) the FDC Procedure 108.015 Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations (authority of the Inspector General)</li> <li>3) the Bureau of State Investigations website (including a complaint form available on the website to assist with investigations, including PREA investigations).</li> <li>4) the FDC Procedure 602.05, Prison Rape: Prevention, Detection, and Response, and</li> <li>5) the Florida Department of Corrections Sexual Abuse Awareness pamphlet and its mission statement.</li> <li>6) a Victim Advocate Certification from the Florida Attorney General's Office</li> <li>7) and the Victim's Rights Brochure of the FDC Victim Services Office.</li> </ol>

Based on the PREA auditor's review of the above documents, websites, contracts, procedures, and based on interviews with specialized staff, including 2 OIG Investigators, the SAFE/SANE coordinator, the crisis center Director, the Agency PREA Coordinator, and based on formal and informal interviews with inmates, this standard is assessed as compliant, "meets standard".

115.22	<b>Policies to ensure referrals of allegations for investigations</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The Apalachee Correctional Institution ensures that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. APACI, as directed by the Post Sexual Battery Guidelines in the FDC Procedure 602.053, Prison Rape: Prevention, Detection, and Response, and makes sure that the [Office of the Inspector General shall conduct all investigations of sexual abuse, sexual battery, sexual misconduct, and sexual harassment, pursuant to section 944.31, F. S., (Investigative Process, Procedure 108.003, and "Sexual Battery, Sexual Harassment, and Sexual Misconduct Investigations," Procedure 108.015.).</p> <p>The auditor also reviewed FDC Procedure 108.001 Authority of the Inspector General, that has as its purpose to, "provide guidelines for members of the Office of the Inspector General (OIG) in carrying out their duties and responsibilities as outlined in section (s) 20.05, five, 901.15, 944.31, and 957.09, F. S., It is noted by the auditor that the Inspector General "has a duty to ensure all the rules and directives issued by the department are observed and followed", and that the "Inspector General shall have the primary responsibility for the investigation of civil, criminal, and administrative matters relating to the Department and within the jurisdiction of the Department." The policy further goes on to discuss general applications and arrests. Specifically, the Office of the Inspector General, Bureau of State Investigations website explains that the OIG "conducts and coordinates complex investigations designed to detect, deter, prevent, and eradicate fraud, waste, mismanagement, misconduct, and other abuses in state government". Also in the website. It is outlined that "our top investigative priorities include investigations into custody deaths, public corruption and criminal efforts to compromise the safety and security of our prisons from violence, introductions/smuggling of contraband and sexual crime/PREA (Prison Rape Elimination Act)".</p> <p>APACI has documented in its Pre-Audit Questionnaire that in the past 12 months, there have been 33 allegations of sexual abuse and sexual harassment that were received and that 21 allegations resulted in an administrative investigation, zero (0) allegations were referred for criminal investigation, and that some allegations are pending completion by the Inspector General's office. Again, it is noted that the Department ensures that administrative or criminal investigations are completed for all allegations of sexual abuse and that sexual abuse or sexual harassment are referred to the OIG, who has the legal authority to conduct criminal investigations (unless the allegation does not involve potentially criminal behavior). The auditor reviewed 16 cases.</p> <p>Based on the interview of two OIG investigators (one of whom instructs PREA investigations), based on interviews with the Grievance Administrator, based on interviews with the Agency PREA Coordinator/staff, the Institutional PREA Manager, and the acting Warden, this standard is assessed as compliant, "meets standard".</p>

115.31	<b>Employee training</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>Apalachee Correctional Institution and the FDC train all employees who have contact with inmates regarding PREA. Employee training is outlined and directed by procedure 602.053, Prison Rape: Prevention, Detection, and Response. This procedure indicates that all staff will be thoroughly trained and informed about the Department's zero-tolerance policy. The Department has comprehensive and thorough training plans that cover the following topics:</p> <ol style="list-style-type: none"> <li>1. A summary of objectives.</li> <li>2. Sexual terms in Florida.</li> <li>3. Defining sexual battery in Florida.</li> <li>4. Sexual abuse within federal law.</li> <li>5. Defining sexual harassment.</li> <li>6. Defining sexual misconduct.</li> <li>7. Sexual misconduct.</li> <li>8. Terminology regarding LGBTI GMC/GV inmates/offenders.</li> <li>9. Why define these terms.</li> <li>10. Zero-tolerance.</li> <li>11. Inmate rights.</li> <li>12. Reporting sexual abuse.</li> <li>13. Imbalance of power.</li> <li>14. Appropriate communications.</li> <li>15. Correctional officers working in opposite gender units.</li> <li>16. Cross gender patdown searches.</li> <li>17. Dynamics of sexual abuse and sexual harassment in confinement</li> <li>18. Common reactions of victims.</li> <li>19. Avoiding inappropriate relationships.</li> <li>20. What is a sexualized work environment.</li> <li>21. Dress code.</li> <li>22. Code of silence.</li> <li>23. Inmate protection.</li> <li>24. Requirement to report sexual abuse.</li> <li>25. Interpreters and hearing impaired.</li> <li>26. Responsibilities of staff reporting.</li> <li>27. Responsibilities of staff.</li> <li>28. Securing evidence.</li> <li>29. Sexual harassment investigation.</li> <li>30. Scenarios.</li> <li>31. Answers.</li> <li>32. Questions.</li> </ol> <p>These sections, numbered by the auditor, were all topics listed in the training curriculum and were further explained by the training outline. The training topics and outlines are considered by the auditor as supporting documents for the very positive effectiveness and efficiency of training within the FDC. Moreover, it is noted that this training occurs annually, exceeding the two-year training requirement that has been established by PREA. This training is described as gender neutral but addresses, as noted above, gender issues and such is further</p>

addressed with "post orders"and duty and responsibility outlines.

Documentation was reviewed, supporting the fact that all staff who have contact with inmates received this training, and that investigative and healthcare staff received not only this training, but additional/supplemental training (see Standard 115.34 and Standard 115.35).

Based on the auditor's review of training records, the staff's course completion history for training, training acknowledgment forms, the curriculum, course outline, and based on the interviews, both formal and informal with staff, this standard is assessed as compliant, "meets standard".

115.32	<b>Volunteer and contractor training</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>APACI trains all its contractors and volunteers who have contact with inmates, as outlined in Procedure 602.053, Prison Rape: Prevention, Detection, and Response. This procedure directs that the "institution shall ensure that all contractors and volunteers who have contact with inmates are trained in their responsibilities under this and related policies via the Staff Development and Training lesson plan, titled Prison Rape Elimination Act Training for Interns, Volunteers and Contractors "Read and Sign"". A number of signed forms (form NI 1-127) indicating that the volunteers and contractors had been trained, were reviewed by the auditor.</p> <p>The Pre-Audit Questionnaire documents that 136 volunteers and contractors (60 volunteers and 76 medical and mental health contractors) who may have contact with inmates have been trained in the Agency's policies and procedures regarding sexual abuse and sexual harassment prevention, detection and response. Specifically, contractors and volunteers were interviewed and asked about the zero tolerance policy regarding sexual abuse and sexual harassment and were also asked about how to report incidences of sexual abuse and sexual harassment, and all interviewed, responded intelligently and appropriately.</p> <p>Based on the above procedures 602.053, and the training extended to the contractors, volunteers and interns, supplemented with the signed acknowledgment forms, the auditor assesses this standard as compliant, "meets standard".</p>

115.33	<b>Inmate education</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="252 248 523 282"><b>Auditor Discussion</b></p> <p data-bbox="252 327 1485 869">The FDC has a Procedure 602.053, Prison Rape: Prevention, Detection, and Response, that indicates inmates will receive information concerning sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment and be oriented/educated in accordance with the FDC Inmate Orientation Procedure 601.201. Additionally, procedure 602.053, directs that each institution "will ensure that the inmate orientation process will encourage inmates to immediately report any concern or fear of possible sexual abuse, sexual battery, staff sexual misconduct, or sexual harassment to the correctional staff." The procedure further indicates that inmates with limited English proficiency, and/or who have a disability will be educated referenced their right to be free from sexual abuse and sexual harassment, zero tolerance, and how to report. The instruction guide for permanent facilities specifically addresses using a translator (staff member or language line operator), closed captioning, American Sign Language, verbal information, mental health staff assistance, special education teacher assistance, and etc.</p> <p data-bbox="252 925 1453 1043">The auditor was present at APACI inmate reception/intake when new inmates were received into the facility. The auditor observed this reception and orientation process, including the video regarding PREA and the processing by medical, security, and classification staff.</p> <p data-bbox="252 1099 1474 1429">Specifically for inmates at their permanent facility three obvious documents are extended/accessible upon arrival; one, the inmate handbook; two, the sexual abuse awareness pamphlet; and three, notices and posters throughout the facility. Supplemental information may be available in the housing units near the inmate telephones, supplemental information is available in the library/law library, supplemental information is available on kiosks accessible by the inmates and supplemental information is available on bulletin boards. Further, inmates can see security staff, classification staff, health services staff and mental health services staff for additional information.</p> <p data-bbox="252 1485 1445 1603">Additionally, the auditor again reviewed the updated, Deputy Secretary's memorandum concerning this assessment process to make sure the entire inmate population receives the appropriate PREA training, and follow up.</p> <p data-bbox="252 1659 1469 1944">The auditor formally interviewed 53 inmates and informally interviewed numerous inmates at APACI (asking questions according to script, and/or questions about zero tolerance for sexual abuse and sexual harassment, and their right to be free from sexual abuse and sexual harassment; and questions about personal safety). Based on these interviews, and based on the orientation and intake process, and based on the auditor's review of acknowledgment forms, documents, inmate education procedures, the auditor assesses this standard as compliant, "meets standard".</p>

<b>115.34</b>	<b>Specialized training: Investigations</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The FDC and the Office of the Inspector General require that all investigators are trained in conducting sexual abuse investigations in confinement settings. The Procedure 602.053, Prison Rape: Prevention, Detection, and Response, requires that in addition to the general PREA training that all staff receive, the OIG investigators who work regularly with inmates receive specialized training. The curriculum for specialized training include:</p> <ul style="list-style-type: none"> <li>A) investigating sexual abuse in the confinement settings,</li> <li>B) techniques for interviewing sexual abuse victims,</li> <li>C) proper use of Miranda and Garrity warnings.</li> <li>D) collection of evidence in confinement settings and</li> <li>E) criteria and evidence required to substantiate any case for administrative action or prosecution referral. According to the preaudit information, 96 investigators currently employed have completed the required training. Note, the auditor has reviewed the training documentation form "training attendance report" DC 2-901, and the E train report. E train home page required courses and selected elective courses.</li> </ul> <p>The PREA auditor interviewed two sworn and certified OIG Investigators, and discussed with them their duties and responsibilities, the issues they face concerning PREA, their training, and their commitment to professional and expert law enforcement. The auditor was impressed with their dedication to the State of Florida, their overall knowledge and expertise, and their commitment to help eliminate rape in prison by compliance with PREA. As mentioned in another standard one of the investigators actually teaches PREA investigation.</p> <p>Based on the auditor's review of the specialized training,,the records documenting the specialized training, and interviews with the investigative staff, this standard is assessed as compliant, "meets standard".</p>

115.35	<b>Specialized training: Medical and mental health care</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The Agency has a policy that all medical, and mental health practitioners who work regularly in the Department of Corrections facilities, including contracted staff (healthcare for APACI, and the FDC is contracted through Centurion of Florida, LLC), will be trained. This Office of Health Services Policy, Health Services, Bulletin NO. 15.0336 direct that the specialized training will include the following:</p> <ol style="list-style-type: none"> <li>1. How to detect and assess signs of sexual, abuse and sexual harassment;</li> <li>2. How to preserve physical evidence of sexual abuse;</li> <li>3. How to respond effectively and professionally to victims of sexual abuse and sexual harassment and;</li> <li>4. How and to whom to report allegations or suspicions of sexual abuse and sexual harassment.</li> </ol> <p>The auditor also noted that this health service bulletin "is to established guidelines for the appropriate clinical management, in an alleged incident of rape." The bulletin goes further to alert medical staff that they should review the FDC Procedure 602.053 "for additional post rape guidelines and responsibilities."</p> <p>It was also noticed by the auditor that this Health Services Bulletin 15.0336 has numerous relevant forms and documents that assists the health care staff with PREA compliance. Forms as follows: alleged sexual battery protocol; medical encounter coding form male/female; chronological record of health care; consent and authorization for disclosure, inspection and release of confidential information; management of viral hepatitis; syphilis treatment protocols; HIPPA privacy policy; testing inmates post communicable disease exposure per section 945.35, Florida Statutes; and the FDC Procedure 602.053 mentioned previously.</p> <p>The Pre-Audit Questionnaire indicates that 76 health care staff (100%) were trained as directed. This training is documented by attendance rosters, and reviewed by the auditor.</p> <p>The contracted Centurion healthcare staff do not perform forensic examinations at APACI. Forensic examinations are performed at APACI by contracted Forensic Nurse Examiners as detailed in Standard 115.21.</p> <p>Based on the policy and procedures above, the documentation of training attendance, and based on interviews with specialty healthcare staff, and random healthcare staff, this standard is assessed as compliant, "meets standard".</p>

115.41	<b>Screening for risk of victimization and abusiveness</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The auditor has reviewed the intake and screening processes several times at FDC facilities and specifically at the APACI. The process at Apalachee Correctional Institution and at other facilities observed is efficient, effective, and consistent with PREA expectations. The Procedure 602.053 Prison Rape: Prevention, Detection, and Response, directs the identification, safety, and security during inmate orientation on all newly received inmates. The Procedure 601.210 Inmate Orientation details the processes "to clearly articulate PREA orientation requirements." This Procedure 601.210, outlines the required documentation and information to not only meet PREA but to assist classification, medical, and security with the screening process.</p> <p>The following systems are outlined:</p> <ol style="list-style-type: none"> <li>1. The Computer-Assisted Reception Process (CARP), which encodes and stores inmate information, and classification assessments.</li> <li>2. The Offender Based Information System (OBIS), electronic records database.</li> <li>3. Biometric Identification System (BIS), verifying the inmates identity and criminal history, this also includes in the NCIC and the FCIC information systems, and</li> <li>4. Assessment systems, Inmate Behavior Assessment Scale (IBAS), and Inmate Risk Management System (IRMS). Additionally, the FPC Restricted Procedure 601.209 Reception Process-Initial Classification, and the supplemental Agency memo on PREA Orientation and Documentation also further outlines the screening process.</li> </ol> <p>The auditor reviewed the above systems, procedures, and policies supporting the appropriate screening for PREA. The above procedures, direct the objective screening systems/documents used by the classification office for initial reception, and facility intake and orientation of the inmate population.</p> <p>Also required by the FDC Procedure 602.053, inmates are screened, within 72 hours of intake, for the risk of sexual victimization or of sexually abusing inmates. The auditor observed this intake process, observed the video and notes that the Pre-Audit Questionnaire and classification records document that 3175 inmates entering the facility within the past 12 months, whose length of stay was for 30 days or more, were assessed for their risk of sexual victimization or of being sexually abusive. Inmates were also reassessed as required by PREA (referrals, requests, incident of sexual abuse, receipt of additional information, and etc.) were considered. The auditor notes that the procedure prohibits disciplining inmates for refusing to answer or not disclosing complete information.</p> <p>Information obtained during the screening process that is sensitive is appropriately controlled and used only to assist inmates with proper housing, work assignments, program assignments, and the inmate's safety and security.</p> <p>Based on the auditor's review of Apalachee Correctional Institution's receiving/intake process, the classification officers' participation in the intake process, healthcare staff's participation in the intake process; the Agency's procedures outlining the screening process; interviews with</p>

staff and inmates; and APACI's commitment to PREA compliance, the auditor assesses this standard as compliant, "meets standard".

115.42	<b>Use of screening information</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>Use of screening information for the reception screening required by Standard 115.41 to make informed housing, bed, work, education, and program assignments and with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive, is directed and outlined by procedures and technical manuals. The Technical Manual, a restricted document for the Bureau of Classification and Management, addresses external movement, automated bed space management, Americans with Disability Act (ADA), inmate behavioral assessments, scale and sexual risk indicators (as mentioned in Standard 115.41). Specifically, the inmate, behavioral assessments scale (IBAS) and the sexual risk indicators (SRI) alerts appropriate staff to inmates who are identified as potential predators, or who are monitored as an aggression risk, in order to assist with inmate placement described above.</p> <p>Observation of operations and the classification procedures at APACI supports the auditor's assessment that the Agency and APACI makes an individualized determination about how to insure the safety of each inmate. There is teamwork, good communication, and positive interaction between classification, medical and security departments that helps ensure safety and security of the inmates.</p> <p>The auditor also reviewed the FDC Procedures 602.053, Prison Rape and 403.012 Identification and Management of Transgender Inmates and Inmates Diagnosed with Gender Dysphoria; the Florida Department of Corrections IBAS Factors and Scores/Profile Comparison Summary Sheet that includes the inmates name, number, bed, location, IBAS, SRI, age, race, custody, height, weight, release date, medical grade, mental health grade, work grade, status, and other identifying information/data. These procedures and summary sheets assist with the accumulation and use of screening information.</p> <p>Based on the auditor's review of the screening at APACI, review of the information screens and the observation of operations including intake/orientation, and review of the assessment process; and based on interviews with staff and inmates, the auditor assesses this standard as compliant, "meets standard".</p>

<b>115.43</b>	<b>Protective Custody</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>According to a FDC procedure, inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives have been made. This prohibition is outlined in the FDC procedures and policies regarding administrative segregation and close management. The procedures also indicate that inmates who are vulnerable or predatory "will be given work/program assignments, consistent with custody level, and medical status.". FDC procedure (Florida Administrative Code 33-602.220) indicates that an inmate who is assigned to involuntary segregated housing will receive a review every 30 days to determine whether there is a continuing need for separation from the general population.</p> <p>According to and documented by the Pre-Audit Questionnaire, there have been zero (0) number of inmates at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months.</p> <p>Based on FDC's administrative segregation policies, and based on APACI's use of protective custody/involuntary segregated housing, and based on interviews with staff and inmates, this standard is assessed as compliant, "meets standard".</p>

<b>115.51</b>	<b>Inmate reporting</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The Florida Department of Corrections has established multiple ways for inmates to report privately about sexual abuse or sexual harassment, retaliation by other inmates or staff. The ways to report are documented on posters in English and Spanish throughout the facility, in the Inmate Manual, in the handout Sexual Awareness, through FDC Procedures, including Procedure 602.053, at the library/law library, and on the Agency website. The most obvious ways to report are as follows:</p> <ul style="list-style-type: none"> <li>Call an outside entity (Gulf Coast Children's Advocacy Center) to report by dialing 8466</li> <li>Call the TIPS line by dialing *8477</li> <li>Report to any staff member, volunteer or contractor, including medical and mental health care staff</li> <li>Submit a grievance or an inmate request</li> <li>Report to the facility's PREA Compliance Manager (the Assistant Warden of Programs)</li> <li>Tell a family member, friend, legal counsel, or anyone else outside the facility. They can report on the inmates behalf through a third-party grievance, through the online citizens complaint form, or by contacting the PREA office at <a href="mailto:PREA@fdc.myflorida.com">PREA@fdc.myflorida.com</a></li> <li>Submit a report on someone's behalf, or someone at the facility can report for the inmate using the methods listed above.</li> </ul> <p>This information taken from an APACI poster (this poster information throughout the facility, as observed by the auditor).</p> <p>Additionally, concerning reporting to staff, the auditor noted that the Agency takes a stand that indicates "no staff member will demean the situation through any type of humiliation or harassment." This is an indication of the Agency's commitment to eliminate rape in prison as outlined by PREA.</p> <p>Based on the auditor's review of the Agency procedure, the information on the Agency website, the information presented to the inmate at intake, based on the information posted in the dormitories, based on the Inmate Manual, based on the Employees Handbook, based on the testing of the hotline from an inmate phone, and based on interviews with staff and inmates confirming their knowledge of reporting, this standard is assessed as compliant, "meets standard".</p>

## **115.52 Exhaustion of administrative remedies**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The Florida Department of Corrections allows inmates to submit a grievance regarding sexual abuse and allows inmates to submit an emergency grievance alleging substantial risk of imminent sexual abuse. As indicated in Standard 115.51, Reporting, FDC Rules and their procedures allow inmates to submit a grievance or an inmate request as an administrative remedy.

FDC Rules 33-103.005 Informal Grievance, and 33-103.006 Formal Grievance outline the procedures for administrative remedies. Specifically, if an inmate believes he or she is the victim of sexual abuse, they should immediately report. There are several ways allegations of sexual abuse may be reported; filing a grievance is one of these ways. These rules were established to meet the requirements of the Prison Rape Elimination Act (PREA) of 2003. These rules go on to indicate that there is no time limit to initiate a grievance regarding sexual abuse. There are instructions not to file the grievance to the individual who is the subject of the complaint. Third parties, including fellow inmates, staff members, etc. are permitted to assist inmates in filing grievances. The extension of time, up to 70 days may be claimed if the normal response time is insufficient to make a decision or the need for an additional investigation (it shall be done in writing), and an inmate may file an emergency grievance if they believe they are subject to a substantial risk of imminent sexual abuse.

In the past 12 months, there have been six (6) grievances that have been filed alleging sexual abuse. These six grievances alleging sexual abuse were answered and a final decision was reached within 90 days. None of these grievances required an extension. This information provided in the Pre-Audit Questionnaire. It is noted by the PREA auditor that grievances filed are sent to the OIG Investigative Office. The Grievance Administrator was interviewed and indicated that as soon as it is recognized that it is a PREA grievance, it is directly forwarded to the OIG.

It is also outlined in FDC Procedure 602.053 that an inmate who has filed a PREA report in bad faith is subject to the inmate discipline process. In the past 12 months, there have been zero (0) number of grievances alleging sexual abuse that resulted in disciplinary action by the Agency against the inmate for having filed a grievance in bad faith. This information detailed in the institutional Pre-Audit Questionnaire.

Based on the auditor's review of Rules, procedures, grievances, the Sexual Abuse Incident Review Committee Reports, and based on the interviews with the OIG investigators, the Institutional Grievance Administrator, and the Institutional PREA Manager, this standard is assessed as compliant, "meets standard".

## **115.53 Inmate access to outside confidential support services**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

As outlined in Procedure 602.053 and documented in the contract with the local advocacy center, APACI provides inmates with access to outside victim advocates for emotional support services related to sexual abuse.

The FDC and Apalachee Correctional Institution have a contract with the Gulf Coast Children's Advocacy Ctr., Incorporated that stipulates the Center will provide advocacy services to inmates who are victims of sexual violence. The contractor will maintain confidentiality and will provide such services as outlined in Standard 115. 21. This contract was reviewed by the PREA auditor. Additionally, pamphlets are available to assist inmates with access to victim advocates and victim services.

The FDC Sexual Abuse Awareness Pamphlet is distributed at intake/orientation. This pamphlet furnishes addresses for support services and supplies information for the inmate about sexual battery, sexual abuse avoidance, what to do if you are sexually assaulted, how to report, facts for the inmate that sexually assaults other inmates, and did you know questions and answers. Further, there is a Victim's Rights Brochure, which addresses "your rights as a victim or witness".

Telephone numbers are posted on the walls/bulletin boards with numbers for advocacy services. Telephone numbers and addresses are also extended in brochures and information pamphlets. The advocacy line was tested and was found to be not working but was subsequently repaired and when retested, was working. Follow-up written notification to the PREA auditor was made that the telephones were working and PREA compliant.

Based on the above agency procedures, the above contract services offered, and the auditor's review of the pamphlets, and the properly working telephone system corrective procedures, and based on the inmate interviews and staff interviews, this standard is assessed as "meets standard".

## **115.54 Third-party reporting**

**Auditor Overall Determination:** Exceeds Standard

### **Auditor Discussion**

As noted in Standard 115.51 and Standard 115.52, the institution, APACI and the FDC provides a method to receive third-party reports of inmate sexual abuse or sexual harassment. Specifically, a third party report can be made directly to the OIG by using the form located on the OIG Bureau of State Investigations website. Additionally, as stipulated in the Florida Administrative Code Rule 33-103.006, Formal Grievance "Third parties must use the official form, DC 1-303, which can be obtained from subsection (1) of this rule. The form may also be requested from the inmates current location or the Department's Central Office...".

The Agency distributes this information as mentioned above, through the OIG website and by the Citizens Complaint Form. Further, the Agency indicates if you have any questions about filing a sexual abuse grievance, you may call the Bureau of Policy Management.

Based on the information and websites above (including the complaint form on the website), and based on the interviews with staff and inmates, the auditor assesses this standard as "exceeds standard".

## 115.61 Staff and agency reporting duties

**Auditor Overall Determination:** Exceeds Standard

### **Auditor Discussion**

The Florida Department of Corrections requires all staff to report immediately and according to state law and agency policy, any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred in the facility. Florida Statute 794.027 Duty to Report Sexual Battery requires that a person who observes the commission of the crime of sexual battery is required to report to law enforcement (detailing other stipulations). Additionally, Florida Statute 944.35, requires "each employee who witnesses, or has reasonable cause to suspect, that an inmate or offender under the supervision of the department in the community has been unlawfully abused or is the subject of sexual misconduct pursuant to this section shall immediately prepare, date, and sign an independent report specifically describing the nature of the force used, or the nature of the sexual misconduct,..."

Importantly, the Florida Department of Corrections and APACI also requires by Procedure 602.053, Prison Rape: Prevention, Detection, and Response that "All incidents or allegations of sexual abuse, sexual battery, staff sexual misconduct and sexual harassment will be reported...". Employees, volunteers and contractors must notify the shift supervisor, the Chief of Security, the Warden, or the Office of the Inspector General, who will then take immediate steps to evaluate the inmates concern/allegation. The Emergency Action Center (EAC), Procedure 602.012 and the Management Information Notification System (NIMS) Procedure 108.007 further outline reporting procedures and address, retaliation, staff neglect, and confidentiality of records. All allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, are investigated.

The auditor noted that the contracted agency for healthcare, Centurion, also requires its medical and mental health practitioners to report according to FDC policy/procedure and PREA law.

Notable in this series of Standards 115.61-116.68 "Official Response Following an Inmate Report," is the following "any employee who fails to report and take immediate action regarding these incidents, or intentionally manifest the actions to embarrass, demean, or humiliate any victim or informant, or trivializes a report of sexual abuse, sexual battery, staff sexual misconduct, or sexual harassment will be subject to discipline, up to and including termination." The auditor believes this directive emphasizes the FDC's commitment to PREA compliance.

The FDC also states the following:

"All staff, volunteers, and contractors will ensure that they foster an environment within their facility that precludes sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment."

Based on the auditor's interviews with random staff, specialized staff, immediate and higher-level staff, investigative staff, and the review of policies, procedures, training documents, and training videos, this standard is assessed as compliant, "exceeds standard".

## 115.62 Agency protection duties

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

APACI takes immediate action when the facility learns that an inmate is subject to substantial risk of imminent sexual abuse. This is outlined in FDC Procedure 602.053, Prison Rape: Prevention, Detection, Response, the procedure directs that that "staff/security concerns will immediately be addressed by the shift supervisor.". Immediate steps are taken to evaluate the inmates concerns/allegations, to separate the alleged victim from the abuser, including administrative confinement pursuant to provisions of the Administrative Confinement Rule 33-602.220. The rule indicates that administrative confinement is "the temporary removal of an inmate from the general inmate population in order to provide for security and safety until such time as more permanent inmate management processes can be concluded."

According to the documentation provided by the Pre-Audit Questionnaire, in the past 12 months, APACI had zero (0) number of times the facility had an inmate that was subject to substantial risk of imminent sexual abuse.

Based on the procedures above and based on the interviews with inmates and staff, including supervisory staff, the PREA Manager, and the acting Warden, this standard is assessed as compliant, "meets standard".

## **115.63 Reporting to other confinement facilities**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The FDC Procedure 602.053, Prison Rape: Prevention, Detection and Response directs and outlines that "If staff at a receiving institution receives information that sexual abuse, sexual battery, staff sexual misconduct, or sexual harassment occurred at another institution, the receiving institution's Warden shall notify the sending institution's Warden within 72 hours of receiving the allegation. The notification shall be documented on DC 6-210. The receiving institution, where the allegation is reported, will be responsible for contacting EAC, completing a DC 6-210, and entering the appropriate information into the MINS for appropriate handling".

The Pre-Audit Questionnaire (PAQ) submitted to the PREA auditor indicates that in the past 12 months, there have been zero (0) number of allegations the facility received that an inmate was abused while confined at another facility. Additionally, the PAQ indicates that in the past 12 months, there have been zero (0) number of allegations of sexual abuse the facility received from other facilities.

Based on the auditor's review of the Agency's procedure and interviews with the acting Warden and the Institutional PREA Manager (Assistant Warden) and interviews with other key staff, this standard is assessed as compliant, "meets standard".

## **115.64 Staff first responder duties**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The Agency's Procedure 602.053 Prison Rape: Prevention, Detection, and Response, directs first responder duties. The titled section "Official Response Following an Inmate Report," directs that the first security staff member shall be required to:

"a) separate the alleged victim and abuser; b) preserve and protect any potential crime scene until appropriate steps can be taken to collect any evidence; c) if the alleged abuse occurred within a time frame that still allows for collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including but not limited to, washing, bathing, brushing teeth, changing clothes, urinating, defecating, drinking or eating; and d) if the first responder is not a security staff member request that the alleged victim not take any action that would destroy physical evidence, and then notify security staff."

In the past 12 months, there were 30 allegations of sexual abuse. Of these 30 allegations, security staff responded and separated the alleged victim from the abuser. Additionally, of these allegations, nine (9) were in the timeframe available for the collection of physical evidence (the timeframe is 72 hours for institutional security unless the timeframes are extended as determined by the OIG. Of allegations that an inmate was sexually abused in the past 12 months, there were zero (0) number of times a nonsecurity staff member was the first responder. These reported numbers were documented by the Pre-Audit Questionnaire.

Staff, when interviewed, responded with answers closely resembling a paraphrasing the above first responder duties and responsibilities. Training records support first responder training. This first responder training is accomplished annually. Additionally, e-learning, and briefings further supplement training for staff.

Based on the above policies and procedures and interviews with staff, the auditor assesses this standard as compliant, "meets standard".

## **115.65 Coordinated response**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

APACI has a PREA coordinated response plan.. The plan is titled "Apalachee Correctional Institution PREA Coordinated Response."

The plan details the individual and facility response, including what to do upon learning of an allegation, notifications, security precautions, and the coordination, as appropriate, by the shift supervisor of the following:

Chief of Security, security staff

Sexual Abuse Response Team (SART)

Emergency Action Center (EAC)

OIG

Medical staff

Mental health staff.

Based on the Apalachee Correctional Institution PREA Coordinated Response plan and based on interviews with staff; including specialized security, medical, mental health, and investigative staff, as well as the acting Warden, this standard is assessed as compliant, "meets standard".

## **115.66 Preservation of ability to protect inmates from contact with abusers**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The Florida Department of Corrections has the ability to protect inmates from contact with abusers reference collective bargaining agreements. Specifically, the Agency has an agreement with the Teamsters Local Union 2011 Security Services Bargaining Unit, but this agreement does not interfere with the ability of the FDC to remove the alleged staff abusers from contact with inmates.

Based on the PREA auditor's interviews with the Secretary of the Florida Department of Corrections, the Agency PREA Coordinator, and based on the information supplied in the Pre-Audit Questionnaire concerning the facility and the collective bargaining unit, this standard is assessed as compliant, "meets standard".

## **115.67 Agency protection against retaliation**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The Agency has a policy to protect all inmates and staff, who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations, from retaliation by other inmates or staff. The FDC Procedure 602.053, Prison Rape: Prevention, Detection, and Response, specifies, "inmates and/or staff who report sexual abuse will be monitored for retaliation for at least ninety (90) days, with at least three (3) contact status checks to occur within the (90) day monitoring at the thirty (30), sixty (60), and ninety (90) day marks from the date of the allegation." The procedure goes further to discuss conduct and treatment, and changes in demeanor of staff and more inmates that will be observed and monitored during the review period. Additionally, monitoring continues beyond the minimum of at least 90 days unless the allegation of retaliation is determined to be unfounded.

The Assistant Warden, the Classification Supervisor, and the Colonel are responsible for monitoring retaliation.

Based on the auditor's review of the Agency's procedures, and the interviews with the acting Warden, the investigators, the Institutional PREA Manager, and random staff and inmates, this standard is assessed as compliant, "meets standard".

## **115.68 Post-allegation protective custody**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The Agency has a policy prohibiting the placement of inmates who allege to have suffered sexual abuse, in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. The FDC Procedure 602.051, Prison Rape: Prevention, Detection, and Response, section (4) Response directs that an inmate may be placed in administrative confinement pursuant FAC Rule 33-302.220, however, the Institutional Classification Team (ICT) will conduct a 72 hour review period during the review. The inmate victim will indicate her/his housing preference on a PREA Victim Housing Preference form. The team will take into consideration the inmate's preference and all available alternative housing options, and then issue a final decision. The number of inmates who allege to have suffered sexual abuse, who were held in involuntary segregated housing for 1 to 24 hours at APACI is two (2). The number of inmates who allege to have suffered sexual abuse, who were assigned to involuntary segregated housing in the past 12 months for longer than 30 days is zero (0). These numbers obtained from the Pre-Audit Questionnaire. The two (2) inmates held in segregation signed the PREA Victim Housing Preference form and the form is documented. No other available housing alternatives were available as determined by the Institutional Classification Team.

The auditor reviewed the Administrative Confinement Rule, the Agency policy and the form concerning victim housing preference and noted that administrative segregation was judiciously used at APACI and that inmates are evaluated on an individual basis by the ICT.

Based on interviews with staff and inmates, and based on the rules of administrative confinement, the observation of the use of confinement, and the Agency's procedures concerning PREA, the auditor assesses this standard as compliant, "meets standard".

## **115.71 Criminal and administrative agency investigations**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The FDC has zero tolerance for sexual abuse and sexual harassment. Further, all allegations of sexual abuse and sexual harassment will be reported to the Office of the Inspector General and the Management Information Notification System (MINS). This is detailed in the FDC Procedure 602.053, Prison Rape: Prevention, Detection, and Response.

The specific procedures for investigation are outlined in the Florida Statutes, Florida Administrative Code, in Procedure 108.007 Investigations, in the Emergency Action Procedure 602.012, and some of this is detailed on the Agency/OIG website. These procedures direct the following: that the "OIG shall be notified and respond to the scene of the crime without unnecessary delay", that the Bureau of State Investigations is a "CFA Accredited Inspector General, Sworn Law Enforcement Statewide Authority, Investigative Agency" and that "investigations are conducted pursuant to the Association of Inspectors General, Principles and Standard for Office of the Inspector General." This taken from the Bureau of State Investigations website.

It is noted by the PREA auditor that an electronic complaint form, that goes directly to the OIG for review, is available on the website <<http://www.dc.state.fl.us/apps/gcomplaint.asp>>, again, this information obtained from the website.

Based on the above information, the auditor's review of the policy and procedures, the Agency and OIG websites, investigations, and the interviews with the two OIG Investigators, the auditor assesses this standard as compliant, "meets standard".

## **115.72 Evidentiary standard for administrative investigations**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

As defined in the Procedure 602.053, Prison Rape: Prevention, Detection, and Response, the Florida Department of Corrections/OIG utilizes the standard of a preponderance of the evidence (no higher than a preponderance of the evidence) for a sustained finding of an administrative investigation.

Based on the procedure, and based on the interviews with the Office of the Inspector General Investigators, the auditor assesses this evidentiary standard as compliant, "meets standard".

## **115.73 Reporting to inmates**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

As discussed in the PREA Standards 115.21 and 115.71, the Office of the Inspector General, through trained investigative staff, is responsible for the investigation of PREA incidents. The auditor notes that the two OIG investigators at APACI were very knowledgeable and professional and insightful into investigations in confinement facilities, and PREA in general. The investigative procedures and processes directed by Procedure 108.015, and Procedure 602.053 include reporting to the inmates. Every allegation is investigated and every investigated allegation is reported to the inmate with a finding of the completed investigation as to whether it was substantiated, unsubstantiated, or unfounded. This on the Bureau State Investigations website with Florida Statute information regarding FSS 943 Department of Law Enforcement.

In the past 12 months, there were 27 investigations of alleged inmate sexual abuse that were completed by the Agency/facility. Of these alleged sexual abuse investigations that were completed in the past 12 months, the number of inmates who were notified, verbally or in writing, of the results of the investigation were 27. This information documented in the PAQ.

Based on the procedures, based on the website information, based on the Sexual Abuse Incident Review Committee (SAIRC) reports, based on the notifications to inmates, and based on the interviews with staff and inmates, the auditor assesses this standard as compliant, "meets standard".

## 115.76 Disciplinary sanctions for staff

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The Florida Department of Corrections has a policy/procedure for disciplinary sanctions up to and including termination for violating Agency sexual abuse or sexual harassment policies. The FDC has zero tolerance for sexual abuse and sexual harassment of the inmate. Further, the Florida Statutes cover Use of Force in the State Correctional System (including sexual misconduct, cruel or inhumane treatment) under FS 944.35; the Executive Branch covers Disciplinary Standards and Range of Disciplinary Actions under the of Florida Administrative Code (601-36.005, and 33-208.003); and the Agency, through the Office of Human Resources, addresses discipline by Procedure 208.039, Employee Counseling and Discipline. These laws, rules and regulations emphasize the FDC's zero-tolerance for sexual abuse and sexual harassment and the Departments efforts to "set minimum standards of conduct, and to establish internal guidelines for administering counseling and disciplinary actions".

The Procedure 208.039 specifically lists the following:

1. Employee discipline standards.
2. Roles and responsibilities.
3. Employee counseling.
4. Types of disciplinary action.
5. Procedures for issuing discipline to permanent status career service employees.
6. Procedures for issuing disciplinary action to SES or promotion probationary status.
7. Procedures for suspension or dismissal of an OPS, or probationary status employee.

This Procedure supplements the above Florida Statutes, Florida Administrative Code, and the State Personnel Rules.

Further, the FDC directs "department employees are expected to act in a professional, reasonable, and respectful manner deserving of public trust and to foster a positive, healthy, and productive work environment."

In the past 12 months, there have been zero (0) number of APACI staff who had been disciplined or terminated for violating Florida, Agency, or Institutional sexual abuse and/or sexual harassment policies.

The auditor assesses this standard as compliant, "meets standard" based on the above information, policies, procedures and interviews with the acting Warden, higher-level and administrative staff, the Assistant Warden (PREA Manager), and the Human Resources Liaison.

## **115.77 Corrective action for contractors and volunteers**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

Consistent with the Florida Statutes, Florida Administrative Code, the Agency Procedure on Employee Counseling and Discipline; the FDC requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies (unless the activity was clearly not criminal) and to relevant licensing boards. Specifically FDC Procedure, 205.002, Contract Management, not only requires that contractors will be identified as "PREA covered contracts" but that contract staff will conduct themselves in accordance with Ethics Procedure 102.004 and moreover termination for cause will apply should "the contractor fail to comply with the Department's PREA policies and procedures and/or Federal Rule 28 C.F.R., Part 115."

In the past 12 months, there have been zero (0) number of contractors or volunteers who have been reported to law enforcement for engaging in sexual abuse of inmates. Additionally, in the past 12 months there have been no allegations of sexual abuse by contractors or volunteers.

Based on preaudit information, and based on interviews with staff, volunteers, contractors, the acting Warden, the Volunteer Coordinator, and key staff throughout the facility, the auditor assesses this standard as compliant, "meets standard".

## 115.78 Disciplinary sanctions for inmates

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

Disciplinary sanctions for inmates and disciplinary procedures for inmates are outlined in the Florida Administrative Code specifically, Chapter 33-601.301 Inmate Discipline-General Policy, Chapter 33-601.314 Rules of Prohibited Conduct and Penalties for Infractions, Chapter 33-601.800 Close Management and the Inmate Manual of APACI. These disciplinary sanctions occur based on a formal disciplinary process following an administrative finding that an inmate engaged in inmate-on-inmate sexual abuse. The general policy on inmate discipline indicates that every inmate will have access to the rules and that the goals and purposes of discipline and disciplinary intervention are designed to eliminate disciplinary violations. The goals and purposes of discipline are incorporated into the staff training program.

As documented by the Pre-Audit Questionnaire for Apalachee Correctional Institution, in the past 12 months the number of administrative findings of inmate-on-inmate sexual abuse that have occurred at the facility is zero (0). Additionally, the number of criminal findings of guilt for inmate-on-inmate sexual abuse that have occurred at the facility is zero (0).

The facility offers therapy, counseling, or other interventions to address motivations for abuse.

It is noted by the auditor, in the FDC's pamphlet on Sexual Abuse Awareness, there is a section "Facts for Perpetrators". These facts indicate that all reports will be referred to the Inspector General; sexual activity increases the risk of sexually transmitted diseases and HIV infection; and if an inmate has trouble controlling his actions he should seek help from mental health or try "talking to or writing a friend, meditate or do breathing exercises to relax, work on a hobby, or engage in some type of exercise."

Based on the auditor's review of the disciplinary process, based on the review of the policy and procedures, and based on interviews with staff and inmates, the auditor assesses this standard as compliant, "meets standard".

## **115.81 Medical and mental health screenings; history of sexual abuse**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

Medical and mental health screenings are offered to all inmates at APACI who have disclosed prior sexual victimization during the screening process outlined in Standard 115.41. The FDC Procedure 602.053 states that "if results of an SRI (risk) assessment or medical assessment indicates that an inmate has experienced prior sexual victimization or has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, the inmate shall be offered a follow-up meeting with a medical or mental health practitioner within 14 days of screening." Additionally, this procedure indicates that information is to be available and limited to health care staff, and "other staff, as necessary to form treatment plans, and security and management decisions, including housing, bed, work, education, and program assignments..."

Informed consent is obtained from inmates who were victimized, not in an institutional setting and under the age of 18. This informed consent is documented.

Based on the medical and mental health care provisions of the procedure above, and based on interviews with specialized health care staff, and random staff and inmates, this standard is assessed as compliant, "meets standard".

## 115.82 Access to emergency medical and mental health services

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

Inmates at Appalachian Correctional Institution, including inmate victims of sexual abuse, receive timely unimpeded access to emergency medical treatment and crisis intervention services. It is noted in the Inmate Manual for APACI that the facility "recognizes that medical care is essential for individual well-being. Unimpeded access to health and dental care will be available during your stay at Appalachee." The Inmate Manual further indicates that the state law has a five dollar copayment for any medical, dental, or psychological services they request, however, treated emergency medical problems (including PREA issues) are not subject to the copayment.

Further, Procedure 602.053 Section Medical and Mental Health Care stipulates that "alleged inmate victims of of sexual abuse, sexual battery, or staff sexual misconduct shall receive timely, unimpeded access to emergency treatment and crisis intervention services....".

Healthcare staff at APACI are contracted through Centurion of Florida, LLC for the provision of comprehensive health care services at institutions in Florida. The contractors employ a managed care model to coordinate the provision of healthcare. Primary care is extended through a core of staff, clinicians, nurses, mental health and dental professionals. The nature and scope of services offered to the inmate population, including PREA issues, are determined by the medical and mental health practitioners at APACI, according to their professional judgment. Emergency Medical Services (EMS) are accessed by the direction of health care staff, 911 services, hospital services and, as determined/provided by health care practitioners on duty 24/7.

Inmates are also informed of what to do if they are sexually assaulted, what to do if the attack has just happened, and how to report. This information, and information about Sexual Abuse Awareness, Sexual Battery, and Sexual Abuse Avoidance, is made available to all inmates upon arrival by PREA video and the handout pamphlet, Florida Department of Corrections Sexual Abuse Awareness.

Forensic examinations are performed by contracted SAFE/SANE practitioners as noted in Standard 115.21.

Healthcare staff and institutional staff, when asked, all considered the level of healthcare, comparable to (or better than) the community level of healthcare. This question is asked as a part of the scripted formal interviews for healthcare staff, prepared by the PRC.

Based on the auditor's observation of daily operations; based on review of healthcare forms, mental health emergency evaluation forms, and staff request referral forms; based on interviews with key health care staff, interviews with the SAFE/SANE Coordinator, interviews with random inmates and staff, and the review of policy and procedure, the auditor assesses this standard as compliant, "meets standard".

## 115.83 Ongoing medical and mental health care for sexual abuse victims and abusers

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

Apalachee Correctional Institution follows procedure 602.053, Prison Rape: Prevention, Detection, and Response, which directs and outlines the procedure for compliance with subsections, (a) through (h) of this standard. Specifically, offering the following:

1. Medical and mental health evaluation and, as appropriate, treatment to those that have been victimized...,
2. Follow-up services, treatment plans and continued care,
3. Provide victims with medical and mental health services, consistent with the community level of care,
4. Not applicable by standard (male facility),
5. Not applicable by standard (male facility),
6. Victims are offered tests for sexually transmitted infections as deemed appropriate,
7. Victims are provided services without cost, whether the victim names the abuser or cooperates with the investigation, and
8. The facility attempts to conduct a mental health evaluation of all known inmate on inmate abusers within 60 days of learning of such history.

Ongoing medical and mental health care for those victimized by sexual abuse is available at Apalachee Correctional Institution or at the local community hospitals in Marianna and Tallahassee. For those at the facility, if appropriate, referrals or transfers can be made to other institutions for the needed level of care. Additionally, referrals are made, as necessary, for the victim when released from custody, and as directed by the Procedure 602.053.

Based on interviews with Centurion health care staff, random staff and inmates, and based on the review of the procedures, documentation, and medical records, the auditor assesses this standard as compliant, "meets standard".

## 115.86 Sexual abuse incident reviews

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

APACI conducts a Sexual Abuse Incident Review at the conclusion of every criminal or administrative sexual abuse investigation (unless the investigation has been determined to be unfounded). These reviews are conducted according to FDC Procedure 602.053, Prison Rape: Prevention, Detection, and Response. The review team, according to the procedure, consists of the Assistant Warden (Chairperson and PREA Manager), Chief of Security, Classification Supervisor, and input from line staff, supervisors, investigators, and medical or mental health practitioners. This is the Sexual Abuse Incident Review Committee (SAIRC).

The SAIRC as directed by the procedure, and considers the following:

- 1) a need to change policy or practice
- 2) motivation (race, ethnicity, gender identity to include LGBTI status or perceived status, gang affiliation, or other group dynamics)
- 3) the area in the facility where the alleged incident occurred
- 4) staffing
- 5) where monitoring technology should be deployed or augmented.

Recommendations and a Summary Report are then made to the Warden. The recommendations made in the report are implemented or are documented for not doing so. The Summary Report is ordinarily made within 30 days of the conclusion of the investigation and then appropriately maintained according to the retention policy. In the past 12 months, there have been 21 reviews, Summary Reports by the SAIRC. The PREA auditor reviewed 16 of these 21 Summary Reports which were from the past 12 months.

Based on the auditor's review of Procedure 602.053, the SAIRC Summary Reports (DC 6-2076), and interviews with the FDC Secretary, FDC PREA Coordinator, the Warden, and the SAIRC team members (all of whom acknowledged and support the review process), the auditor assesses this standard as compliant, "meets standard".

## **115.87 Data collection**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The Florida Department of Corrections collects accurate, uniform data for every allegation of sexual abuse at its facilities. The FDC uses the US Department of Justice Survey of Sexual Victimization State Prison Systems Summary Form to complete its annual reporting activities. The FDC has promulgated the Procedure 602.053 that directs "data collection and analysis". The procedure indicates that the data will be utilized to improve the Department's efforts to help prevent sexual abuse in prison, including identifying problem areas, taking corrective action, and comparing the current year's data and corrective actions to those of former years. The procedure also indicates that the Institutional Compliance Manager is responsible for compiling data and preparing an annual corrective action plan.

Apalachee Correctional Institution collects accurate, uniform data for each allegation of sexual abuse at APACI, East and West Units. APACI collects this data using the format of the Survey of Sexual Victimization (SSV), 2016 State Prison Systems Summary Form (SSV-2 2016) US Department of Justice, and the definitions template provided by the FDC Procedure 602.053 Prison Rape: Prevention, Detection, and Response. As indicated in the procedure, the Assistant Warden (PREA Manager) is responsible for an annual corrective action plan and for providing data to the Central Office..

Based on the auditor's review of the SSV, the facility annual report, the FDC's annual report, and based on interviews with the FDC PREA Coordinator, this standard is assessed as "meets standard".

## **115.88 Data review for corrective action**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

Interviews with the FDC Secretary (Agency Head), the Agency PREA Compliance Coordinator, the Institutional PREA Manager (Assistant Warden), and the acting Warden, confirm that the Agency and the APACI facility are continually assessing and collecting PREA data for corrective action, and to "improve the effectiveness of the Department's efforts toward sexual abuse prevention, detection, and response policies, practices, and training, including identifying data, problem areas, taking corrective action, and the preparation of an Annual Report that includes a comparison of the current year's data and corrective actions with those from prior years." This taken directly from FDC Procedure 602.053, Prison Rape: Prevention, Detection, and Response (Data Collection and Analysis p.14).

It is noted by the PREA auditor that in addition to the above, the Florida Department of Corrections website (<http://www.dc.state.fl.us/oth/PREA/index.html>) indicates "The Department has established a zero-tolerance policy for all forms of sexual abuse, sexual battery and

sexual harassment, pursuant to the Prison Rape Elimination Act of 2003.... All staff members, contractors and volunteers receive training on their duties and responsibilities under PREA and the Department's zero-tolerance policy. All staff members, contractors, and volunteers are informed that they are required by law to report any incident(s) or allegations of sexual abuse, sexual battery or sexual harassment immediately. FDOC has assigned a PREA Coordinator, and support staff to assist in developing, implementing and monitoring the Department's compliance of the PREA standards. For questions or comments regarding The Prison Rape Elimination Act (PREA), please contact us at [PREA@fdc.myflorida.com](mailto:PREA@fdc.myflorida.com)."

Additionally, the website includes the following:

1. Resources - instructions for filing a third party grievance; third party grievance form; Florida statute 944.31; sexual battery, sexual harassment, and sexual misconduct investigations; PREA final standards; the PREA resource center; PREA survivor stories.
2. Publications - Corrective Action Plans and Survey of Sexual Victimization (2012-2016).

The auditor reviewed the February 6, 2018-2017 facility corrective action plan/PREA by the assistant Warden/PREA Manager submitted to the agency PREA Coordinator addressing PREA Standards and corrective actions for those standards, as appropriate. This Corrective Action and Report based on the Agency's PREA Coordinator review (a PREA certified auditor).

The auditor also reviewed the Florida Department of Corrections 2017, Prison Rape Elimination Act Corrective Action Plan signed by the Secretary FDC 3/9/18.

Based on the auditor's review of the agency website, the Department of Corrections PREA Corrective Action Plan, the Apalachee Correctional Institution Corrective Action Plan, and based on interviews with the Secretary of the FDC, the Agency PREA Coordinator, the Institutional Acting Warden, and the Institutional PREA Manager (assistant Warden), the auditor assesses this standard as compliant, "meet standards."

## **115.89 Data storage, publication, and destruction**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

FDC Procedure 602.053, Prison Rape: Prevention, Detection, and Response directs collection and analysis of data concerning PREA. Specifically, the Procedure indicates that "The PREA coordinator will be responsible for the compilation and reporting of data related to PREA incidents as defined herein, including the data necessary to complete the PREA survey administered by the Federal Bureau of Justice Statistics using a "Survey of Sexual Victimization-Incident Form," SSV-1A and "Survey of Sexual Victimization-State Prison Systems Summary Form," SSV-2.". It is also noted that Institutional PREA Managers are responsible for uploading documents into the electronic retention files. The Pre-Audit Questionnaire for APACI also documents that the Agency removes all personal identifiers from published website reports, and that the Agency maintains sexual abuse data collected for at least 10 years after the date of initial collection, unless federal, state or local law requires otherwise.

The Agency has also outlined, through Procedure 602.053, specific duties and responsibilities for the PREA Coordinator and Compliance Managers, including the overall direction for "the compliance with federal laws"; including "planning, directing, and coordinating all activities related to the compliance program, including administrative, financial, and operational issues,"; and "prepare and maintain records of all compliance activities within her/his respective institution."

Based on the auditor's interviews with the Agency PREA Coordinator, the APACI Institutional PREA Manager, and based upon the above Procedure and information, this standard is assessed as compliant, "meets standard".

## **115.401 Frequency and scope of audits**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The auditor reviewed subsections a, b, h, l, m, n with key staff and reviewed the FDC Agency website. Based on these reviews, and based on the accessibility of all areas of the institution to the auditor, and based on the auditor's access to the inmates and the inmates access to the auditor, the auditor assesses this standard as compliant, "meets standard".

It should be noted that the auditor discussed with the Agency PREA Statewide Coordinator, and the staff of the Statewide PREA Office the subsections a and b, of this standard , which were discussed with the PREA Resource Center. This discussion was relayed to the auditor and supported the auditor's assessment of compliance for this standard. It is also noted that the auditor reviewed the previous APACI 2015 PREA audit which was on the Agency's website.

## **115.403 Audit contents and findings**

**Auditor Overall Determination:** Meets Standard

### **Auditor Discussion**

The auditor has reviewed the FDC Agency website, and the auditor has interviewed both the Secretary of the Florida Department of Corrections and the Agency PREA Coordinator. This standard has also been discussed with the Agency's PREA office on several occasions. Based on these formal interviews and discussions, and based on the review of the website that contained the previous published audit report for Apalachee Correctional Institution and finding this audit as part of the second cycle of audits, the auditor assesses this standard as "meets standard".
