Inmate Escape Report (First Quarter of Fiscal Year 2019-20)

This report provides information for the first quarter (July 2019 - September 2019) of FY 2019-20 in reference to attempted escapes, escapes and recaptures from Florida's correctional facilities. This report summarizes the following:

- Attempted escapes;
- Escapes by level, facility type, and facility type by region;
- Recaptures, recaptures within quarter, by time to recapture, and time to recapture by facility type;
- Escape rates and rates by region, and facility type by region;
- Escapes by facility type, by month; and
- Escape rates by region, by quarter.

For purposes of this report, attempted escape and escape are defined as follows:

- **Attempted escape:** Inmate is apprehended before completion of the escape act.
- **Escape:** Unauthorized absence from the designated facility boundary or absence from any official assignment outside this boundary.

An escape is further defined as one of the following levels:

- **Level I:** Escape from non-secure environment, such as a community correctional center or an outside work squad, in which no Level III behaviors are exhibited.
- **Level II:** Escape from a secure perimeter or supervised environment in which no Level III behaviors are exhibited.
- **Level III:** Escape that involves hostages, weapons/tools, outside assistance, or violence during or after the escape.

An **escape rate** is defined as the number of escapes/(total population on the last day of the month for each month in the quarter/3)* 1,000.

A **perimeter escape** is defined as one initiated from inside the perimeter of a correctional facility other than a community release facility.

Summary:

There were 12 escapes for the first quarter (July 2019 - September 2019) of Fiscal Year 2019-20. 11 (91.7%) of the 12 escapes were from Contracted Work Release Centers, and 1 (8.3%) of the 12 escapes was from a Correctional Institution. The escape from a Correctional Institution was an escape from a secure perimeter, during which an inmate used a homemade ladder to climb the perimeter fence undetected. Due to the use of the homemade ladder the escape was deemed a Level III escape. The inmate was recaptured in less than 24 hours.

11 of the 12 escapes (91.7%) were Level I escapes; 1 (8.3%) of the 12 escapes was a Level III escape. There were no escapes designated Level II during the first quarter.

Of the 12 completed escapes, 10 (83.3%) were recaptured. Of those recaptured, 9 (90.0%) were recaptured within the same quarter. 5 (55.6%) of the 9 were recaptured within 24 hours of escape.

The overall escape rate for the quarter was 0.13 escapes per 1,000 inmates. This is slightly higher than the 0.11 rate observed for the first quarter of Fiscal Year 2018-19, but equal to the 0.13 rate observed for the first quarter of Fiscal Year 2017-18. Region IV had the highest escape rate at 0.45. Region II had the lowest rate with 0.03 overall for the quarter.

There was 1 attempted escape in the first quarter of Fiscal Year 2019-20.
